AIG Casualty Differentiators

Product recall

Our product contamination insurance offers extensive coverage for unforeseen or intentional contamination of a food product or intervention by public authorities. This insurance offers coverage for the costs incurred (recall costs, decontamination costs, ...) as well as for financial losses which result from contaminations.

Captive

Our captive division works closely together with clients to offer them an alternative insurance or re-insurance solution which meets their expectations.

Environmental insurance

We offer a wide range of insurance solutions customized to fit the wishes of our clients: contamination of your own location or by third parties, damage during transport, damage to biodiversity, interruption of business, work for third parties, asbestos removal, etc.

Multinational

For more than 100 years, AIG has been the partner for extensive, seamless multinational insurance programmes. When businesses develop internationally, we can rely on extensive knowledge of local markets, world-wide claims service and customized solutions.
